

12V Delay Timer Relay with 555 IC

Technical Manual Rev 1r0

The 12V Delay Timer with adjustable precision potentiometer to set the time of the relay to switch ON.

Specifications:

Input supply voltage: 12VDC

Adjustable time: 0 to 10 secs

Control Voltage: AC 0 ~ 250V, Max 10A

DC 0 ~ 30V, Max 10A

Built-in IC: 555 Timer

Relay Module: JQC-3FF-S-Z

PCB Dimensions: 21mm x 67.5mm
